

Connect the Adafruit USB to TTL Serial Cable for Raspberry Pi

USB Cable	Raspberry Pi GPIO
Red – 5 vdc power	Do not connect to both UART and another 5 vdc source through the regular power connector. But if you are careful, and need to do this for some reason... Board pin 2
Black – ground	Board pin 6 – GND
White – RXD	Board pin 8 – TXD
Green – TXD	Board pin 10 – RXD
